Legal Services of North Florida, Inc. will discuss with you how to spot housing discrimination so that you are not refused housing because of your race, color, national origin, religion, sex, handicap, or familial status after a hurricane when affordable housing opportunities are low, and tensions are high. We will be displaying the US Dept. of HUD website at www.hud.gov , and the Legal Services www.fairhousinginfo.org web site and explaining how to navigate these sites for forms and information. We will also be offering instruction and assistance on filing fair housing complaints, handing out brochures, and other information. Also, come and enter in the drawings for the Coleman Lantern donated by Legal Services, and the storage filer for your important legal papers!

This program has been paid for in part by a grant from the US Dept. of HUD.
